Companies/Maryland*

**New for 2021  
Engineer of the Year  
Awards**

# MEMO

TO: All Member Firm Representatives  
FROM: Tiffany Harrison, Chair, ACEC/MD Awards & Recommendations  
Committee  
SUBJECT: 2021 ACEC/MD Engineer of the Year Award from a Small firm & from  
a Mid-Large Firm

---

ACEC/MD is excited to announce the launch of new awards recognizing the important contributions by engineers from both a small firm and a mid-large size firm. Recognizing engineering achievements and community service, these awards are designed to spotlight the well-rounded attributes of our member firms' team members.

Attached is a copy of the criteria for the award, along with an application. Please note that a 100-person firm is the delineation point separating the two awards.

To be eligible for the competition, you must send your entry electronically to [acecmd@acecmd.org](mailto:acecmd@acecmd.org), by **Friday, January 8, 2021**.

Thank you very much for helping ACEC/MD spotlight our member firms' employees' contributions to society!
